INDEPENDENT AUDITOR'S REPORT

The Shareholders and
Board of Directors
Redwood Capital Bancorp and Subsidiary
Eureka, California

Report on the Financial Statements

We have audited the accompanying consolidated financial statements of Redwood Capital Bancorp and Subsidiary, which comprise the consolidated balance sheets as of December 31, 2015 and 2014, and the related consolidated statements of operations, comprehensive income, changes in shareholders' equity and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

The Shareholders and
Board of Directors
Redwood Capital Bancorp and Subsidiary

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Redwood Capital Bancorp and Subsidiary, as of December 31, 2015 and 2014, and the results of their operations, comprehensive income, and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

REDWOOD CAPITAL BANCORP AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2015 and 2014

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Business: Redwood Capital Bancorp (the Company), formed in 2007, is a bank holding company whose principal activity is the ownership and management of its wholly-owned subsidiary, Redwood Capital Bank (the Bank). The Bank was incorporated on November 3, 2003 and commenced operations on March 24, 2004. The Bank is subject to regulation, supervision, and regular examination by the California Department of Business Oversight (CDBO) and the Federal Deposit Insurance Corporation (FDIC). The regulations of these agencies govern most aspects of the Bank's business. The financial statements of the Company are prepared in conformity with generally accepted accounting principles and general practices within the banking industry. The following is a summary of the significant accounting and reporting policies used in preparing these financial statements.

Principles of Consolidation: The consolidated financial statements include the accounts of the Company and the Bank. All material intercompany accounts and transactions have been eliminated.

Nature of Operations: The Bank provides commercial, industrial, agricultural, residential and personal credit and other banking services through its branches located in Eureka, Fortuna, and Arcata, California.

Use of Estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

The determination of the adequacy of the allowance for loan losses is based on estimates that are particularly susceptible to significant changes in the economic environment and market conditions. In connection with the determination of the estimated losses on loans, management obtains independent appraisals for significant collateral. The Company's loans are generally secured by specific items of collateral including real property, consumer assets, and business assets. Although the Company has a diversified loan portfolio, a substantial portion of its debtors' ability to honor their contracts is dependent on local economic conditions. While management uses available information to recognize losses on loans, further reductions in the carrying amounts of loans may be necessary based on changes in local economic conditions. Because of these factors, it is reasonably possible that the estimated losses on loans may change materially in the near term. However, the amount of the change that is reasonably possible cannot be estimated.

Investment Securities: Securities are classified as held-to-maturity if the Company has both the intent and ability to hold those debt securities to maturity regardless of changes in market conditions, liquidity needs or changes in general economic conditions. These securities are carried at cost, adjusted for amortization of premium and accretion of discount, computed by the interest method over their contractual lives.

Securities are classified as available-for-sale if the Company intends to hold those debt securities for an indefinite period of time, but not necessarily to maturity. Any decision to sell a security classified as available-for-sale would be based on various factors, including significant movements in interest rates, changes in the maturity mix of the Company's assets and liabilities, liquidity needs, regulatory capital considerations and other similar factors. Securities held as available-for-sale are carried at fair value. Unrealized holding gains or losses are reported as increases or decreases in shareholders' equity, net of the related deferred tax effect. Realized gains or losses, determined on the basis of the cost of specific securities sold, are included in earnings.

Mortgages Held for Sale: Mortgages held for sale consist of one-to-four family residential loans originated for sale in the secondary market and are carried at the lower of cost or estimated fair value determined on an aggregate basis. The long-term, fixed rate loans are sold to investors on a best efforts basis such that the Company does not absorb the interest rate risk involved in the loans. The fair value of loans held for sale is determined by reference to quoted prices for loans with similar coupon rates and terms.

Loans: Loans are stated at the amount of unpaid principal reduced by net deferred loan fees. Loan origination fees, net of direct origination costs, are deferred and recognized as an adjustment of the yield on the related loan. Amortization of net deferred loan fees is discontinued when the loan is placed on nonaccrual status. Interest on loans is accrued and credited to income based on the principal amount outstanding.

REDWOOD CAPITAL BANCORP AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2015 and 2014

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Allowance for Loan Losses: The allowance is maintained at a level which, in the opinion of management, is adequate to absorb probable losses inherent in the loan portfolio. Credit losses related to off-balance-sheet instruments are included in other liabilities. Management determines the adequacy of the allowance based upon reviews of individual loans, recent loss experience, current economic conditions, the risk characteristics of the various categories of loans and other pertinent factors. The allowance is based on estimates, and ultimate losses may vary from the current estimates. These estimates are reviewed monthly and, as adjustments become necessary, they are reported in earnings in the periods in which they become known. Loans deemed uncollectible are charged to the allowance. Provisions for loan losses and recoveries on loans previously charged off are added to the allowance.

All loans, except those to individuals, are considered impaired, based on current information and events, if it is probable that the Company will be unable to collect the scheduled payments of principal or interest when due according to the contractual terms of the loan agreement. Allowances on impaired loans are established based on the present value of expected future cash flows discounted at the loan's historical effective interest rate or, for collateral-dependent loans, on the fair value of the collateral. Cash receipts on impaired loans are used to reduce principal.

Income Recognition on Impaired and Nonaccrual Loans: Loans, including those considered impaired, are generally classified as nonaccrual if they are past due as to maturity or payment of principal or interest for a period of more than 90 days, unless such loans are well-secured and in the process of collection. If a loan or a portion of a loan is classified as doubtful or is partially charged off, the loan is classified as nonaccrual. Loans that are on a current payment status or past due less than 90 days may also be classified as nonaccrual if repayment in full of principal and/or interest is in doubt.

Loans may be returned to accrual status when all principal and interest amounts contractually due (including arrearages) are reasonably assured of repayment within an acceptable period of time, and there is a sustained period of repayment performance by the borrower, in accordance with the contractual terms of interest and principal.

While a loan is classified as nonaccrual and the future collectability of the recorded balance is doubtful, collections of interest and principal are generally applied as a reduction to the principal outstanding. When the future collectability of the recorded balance is expected, interest income may be recognized on a cash basis. In the case where a nonaccrual loan had been partially charged off, recognition of interest on a cash basis is limited to that which would have been recognized on the recorded balance at the contractual interest rate. Cash interest receipts in excess of that amount are recorded as recoveries to the allowance for loan losses until prior charge-offs have been fully recovered.

Premises and Equipment: Premises and equipment are stated at cost, less accumulated depreciation and amortization. The provision for depreciation and amortization is computed principally by the straight-line method over estimated useful lives of the related assets.

Foreclosed Real Estate: Foreclosed real estate includes both formally foreclosed property and in-substance foreclosed property. In-substance foreclosed properties are those properties for which the Company has taken physical possession, regardless of whether formal foreclosure proceedings have taken place. At the time of foreclosure, foreclosed real estate is recorded at fair value less cost to sell, which becomes the property's new basis. Any write-downs based on the asset's fair value at date of acquisition are charged to the allowance for loan losses. After foreclosure, valuations are periodically performed by management and the real estate is carried at the lower of their new cost basis or fair value minus estimated costs to sell. Revenue and expenses from operations and subsequent adjustments to the carrying amount are included in other non-interest expenses.

Investment in Federal Home Loan Bank Stock: As a member of the Federal Home Loan Bank (FHLB) System, the Bank is required to maintain an investment in capital stock of the FHLB. The investment exceeds the minimum requirement at December 31, 2015 and 2014. The investment is stated at cost in the accompanying balance sheets and is reported as part of other assets.

REDWOOD CAPITAL BANCORP AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2015 and 2014

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Mortgage Servicing Rights: Servicing rights resulting from the sale or securitization of loans originated (asset transfers) are initially measured at fair value at the date of transfer and the changes in fair value, primarily due to changes in valuation inputs and assumptions and to the collection/realization of expected cash flows, are reported in noninterest income in the period in which the change occurs. The rights to service mortgage loans for others, or mortgage servicing rights, are recognized as assets whether purchased or resulting from an asset transfer.

Income Taxes: Provisions for income taxes are based on amounts reported in the statements of operations (after exclusion of non-taxable income such as interest on state and municipal securities) and include deferred taxes on temporary differences in the recognition of income and expense for tax and financial statement purposes. Deferred taxes are computed using the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. Deferred tax assets are recognized for deductible temporary differences and tax credit carryforwards, and then a valuation allowance is established to reduce that deferred tax asset if it is “more likely than not” that the related tax benefits may not be realized.

Net Income Per Share of Common Stock: Net income per share of common stock is computed by dividing net income by the weighted average number of shares of common stock outstanding during the year, after giving retroactive effect to stock dividends and splits. Net income per share assuming dilution is computed similar to net income per share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the dilutive potential common shares had been issued. Included in the denominator is the dilutive effect of stock options computed under the treasury method.

Advertising: Advertising costs are charged to operations in the year incurred.

Off-Balance-Sheet Financial Instruments: In the ordinary course of business the Company has entered into off-balance sheet financial instruments consisting of commitments to extend credit and standby letters of credit. Such financial instruments are recorded in the financial statements when they become payable.

Stock-Based Compensation Accounting: The Company has a stock-based employee and director compensation plan which is described more fully in Note N. The Company applies the fair value recognition provisions of FASB ASC 718, *Accounting for Stock-Based Compensation*. Accordingly, compensation cost for stock options is measured based on the grant-date fair value and is recognized in the income statement. Awards under the Company’s plan generally vest over five years.

Operating Segments: Reportable segments are based on products and services, geography, legal structure, management structure and any other manner in which management desegregates a company for making operating decisions and assessing performance. The Company has determined that its business is comprised of a single operating segment.

Cash and Cash Equivalents: For the purpose of presentation in the Statement of Cash Flows, cash and cash equivalents are defined as those amounts included in the balance sheet caption “Cash and due from banks,” “Federal funds sold” and “interest-bearing deposits in other financial institutions.”

Subsequent events: The Company evaluated all events or transactions that occurred after December 31, 2015 and up to March 28, 2016, the date the financial statements were issued. During this period, the Company did not have any recognizable or nonrecognizable subsequent events.

Small Business Administration Securities	1,687,653		(35,028)	1,652,625
Mortgage-backed securities	3,323,103	37,159	(17,435)	3,342,827
Municipal securities	4,569,612	55,124	(27,562)	4,597,174
Collateralized mortgage obligations	4,293,957	102,281	(25,517)	4,370,721
Total	<u>\$ 20,799,330</u>	<u>\$ 285,809</u>	<u>\$ (171,544)</u>	<u>\$ 20,913,595</u>

The maturities of investment securities at December 31, 2015 were as follows:

	Available-for-Sale	
	Amortized Cost	Fair Value
Due from one year to five years	\$ 2,068,926	\$ 2,057,777
Due from five years to ten years	7,098,796	7,236,616
Due after ten years	13,135,751	13,091,817
	<u>\$ 22,303,473</u>	<u>\$ 22,386,210</u>

The amortized cost and fair value of mortgage-backed securities and collateralized mortgage obligations are presented by contractual maturity in the preceding table. Expected maturities will differ from contractual maturities because borrowers may have the right to call or prepay obligations without call or prepayment penalties.

Proceeds from sales of investment securities available-for-sale during 2014 were \$5,897,656. Gross gains on the sales were \$95,444 in 2014. Gross losses in 2014 were \$48,252. There were no sales of investment securities available-for-sale during 2015.

NOTE B – INVESTMENT SECURITIES (Continued)

Investment securities with an amortized cost of \$12,274,407 and a fair value of \$12,678,887 at December 31, 2015 were pledged to secure public deposits. Investment securities with an amortized cost of \$11,524,979 and a fair value of \$12,119,342 at December 31, 2014 were pledged to secure public deposits.

The following table shows the investments' gross unrealized losses and fair value, aggregated by investment category and length of time that individual securities have been in a continuous unrealized loss position, at December 31, 2015 and 2014.

Description of Securities	2015			
	Less than 12 months		More than 12 Months	
	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss
U.S. Treasury	\$ 1,997,891	\$ (12,610)		
U.S. Government agency securities	991,798	(8,202)		
Small Business Administration securities	6,466,319	(49,894)	\$ 232,423	\$ (6,125)
Mortgage-backed securities	1,363,229	(6,164)	1,014,255	(41,199)
Municipal securities	2,014,630	(5,290)		
Collateralized mortgage obligations	1,071,774	(13,111)	771,781	(23,657)
	<u>\$ 13,905,641</u>	<u>\$ (95,271)</u>	<u>\$ 2,018,459</u>	<u>\$ (70,981)</u>
Description of Securities	2014			
	Less than 12 months		More than 12 Months	
	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss
U.S. Government agency securities	\$ 994,697	\$ (5,303)	\$ 2,939,301	\$ (60,699)
Small Business Administration securities			1,652,626	(35,028)
Mortgage-backed securities	1,119,615	(17,435)		
Municipal securities	540,475	(1,660)	1,493,863	(25,902)
Collateralized mortgage obligations			1,945,572	(25,517)
	<u>\$ 2,654,787</u>	<u>\$ (24,398)</u>	<u>\$ 8,031,362</u>	<u>\$ (147,146)</u>

There were two U.S. Treasury securities that were in a continuous loss position for less than 12 months as of December 31, 2015. There was one U.S. government agency security, six Small Business Administration securities, two mortgage-backed securities, two municipal securities, and one collateralized mortgage obligation that were in a continuous loss position for less than 12 months as of December 31, 2015. There was one Small Business Administration securities, one Mortgage-backed security, and one Collateralized mortgage obligation that were in a continuous loss position for 12 months or more as of December 31, 2015.

There was one U.S. government agency security, one mortgage-backed security, and one municipal security that were in a continuous loss position for less than 12 months as of December 31, 2014. There were two U.S. Government agency securities, two Small Business Administration securities, one municipal security, and two Collateralized mortgage obligations that were in a continuous loss position for 12 months or more as of December 31, 2014.

The unrealized losses on these securities were caused by interest rate increases. The contractual terms of these investments do not permit the issuer to settle the securities at a price less than the par value of the investment. Because the Company has the ability and intent to hold these investments until a recovery of fair value, which may be maturity, the Company does not consider these investments to be other-than-temporarily impaired at December 31, 2015 and 2014.

NOTE C – LOANS, NET

Major classifications of loans at December 31 are summarized as follows:

	<u>2015</u>	<u>2014</u>
Commercial real estate	\$ 142,765,186	\$ 114,572,131
Commercial loans	15,255,406	19,580,666
Construction and land loans	10,330,006	12,560,391
Residential real estate	17,703,279	21,699,475
Loans to individuals	26,227,912	27,069,242
Agricultural	10,292,591	10,232,919
	<u>222,574,380</u>	<u>205,714,824</u>
Net deferred loan fees and costs	156,850	166,691
Allowance for loan losses	<u>(3,276,345)</u>	<u>(2,998,938)</u>
	<u>\$ 219,454,885</u>	<u>\$ 202,882,577</u>

The Company receives fees for servicing retained on loans sold. Loans being serviced by the Company for others totaled approximately \$95,761,168 and \$85,916,861 for the years ended December 31, 2015 and 2014, respectively.

The maturity and repricing of the loan portfolio is as follows at December 31:

	<u>2015</u>	<u>2014</u>
Fixed rate loan maturities		
Three months or less	\$ 1,036,338	\$ 282,310
Over three months to twelve months	1,879,427	1,751,150
Over one year to five years	13,996,326	5,904,068
Over five years to fifteen years	3,502,294	8,939,677
Over fifteen years	3,576,961	2,718,233
Floating rate loans repricing		
Quarterly or more frequently	56,993,222	68,883,722
Quarterly to annual frequency	12,427,386	6,041,770
One to five years frequency	115,719,540	90,856,782
Five to fifteen years frequency	12,536,431	19,164,231
Non-accrual loans	906,455	1,172,881
	<u>\$ 222,574,380</u>	<u>\$ 205,714,824</u>

December 31, 2015 and 2014

NOTE D – ALLOWANCE FOR LOAN LOSSES AND CREDIT QUALITY

The Company's methodology for assessing the appropriateness of the allowance consists of three key elements, which include the general allowance, the specific allowance and an allowance for changing environmental factors. These various components are factored into a single allowance analysis.

General Allowance: The determination of the general allowance is based on estimates made by management, including but not limited to, consideration of historical losses by portfolio segment, peer bank losses, analysis of the economy, market rate environment, underwriting standards and other criteria as identified by the credit administrator. The portfolio segments include commercial real estate, construction, single family residential, home equity lines of credit, agricultural land, commercial, agricultural loans/lines and consumer. In addition, the Company segregates each of these segments into local and out-of-area loans. Local refers to properties located in Humboldt, Del Norte and Trinity counties, and out-of-area refers to properties located outside of the tri-county area. Peer bank loss information is used for loans that are out-of-area, unless the Company's loss history is higher. The general allowance consists of reserve factors that are based on charge-off history and management's assessment of each portfolio segment. These reserve factors are inherently subjective and are driven by the repayment risk associated with each portfolio segment described below:

Commercial Real Estate—These loans generally possess a higher inherent risk of loss than other real estate portfolio segments, except construction loans. Adverse economic developments or an overbuilt market impact commercial real estate projects and may result in troubled loans. Trends in vacancy rates of commercial properties impact the credit quality of these loans. High vacancy rates reduce operating revenues and the ability for properties to produce sufficient cash flow to service debt obligations.

Commercial—Commercial loans generally possess a lower inherent risk of loss than real estate portfolio segments because these loans are generally underwritten to existing cash flows of operating businesses. Debt coverage is provided by business cash flows and economic trends influenced by unemployment rates and other key economic indicators are closely correlated to the credit quality of these loans.

Construction and Land—Construction and land loans generally possess a higher inherent risk of loss than other real estate portfolio segments. A major risk arises from the necessity to complete projects within specified cost and time lines. Trends in the construction industry significantly impact the credit quality of these loans, as demand drives construction activity. In addition, trends in real estate values significantly impact the credit quality of these loans, as property values determine the economic viability of construction projects.

Residential Real Estate—The loans consist of single family residential loans and home equity lines of credit. The degree of risk in residential real estate lending depends primarily on the loan amount in relation to collateral value, the interest rate and the borrower's ability to repay in an orderly fashion. These loans generally possess a lower inherent risk of loss than other real estate portfolio segments. Economic trends determined by unemployment rates and other key economic indicators are closely correlated to the credit quality of these loans. Weak economic trends indicate that the borrowers' capacity to repay their obligations may be deteriorating.

Installment and other loans to individuals—The installment loan portfolio is comprised of a large number of small loans scheduled to be amortized over a specific period. Most installment loans are made directly for consumer purchases, but business loans granted for purchase of heavy equipment or industrial vehicles may also be included.

Agriculture—Loans secured by agricultural land and production are especially vulnerable to two risk factors that are largely outside the control of the Company and borrowers, commodity prices and weather conditions.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2015 and 2014

NOTE D – ALLOWANCE FOR LOAN LOSSES AND CREDIT QUALITY (Continued)

Specific Allowance: Regular credit reviews of the portfolio also identify loans that are considered potentially impaired. A loan is considered impaired when, based on current information and events, the Company determines that they will probably not be able to collect all amounts due according to the loan contract, including scheduled interest payments. When the Company identifies a loan as impaired, the Company measures the impairment using discounted cash flows, except when the sole remaining source of repayment for the loans is the liquidation of the collateral. In these cases, the Company uses the current fair value of the collateral, less selling costs. If the Company determines that the value of the impaired loan is less than the recorded investment in the loan, the Company either recognizes an impairment reserve as a specific allowance to be provided for in the allowance or charges-off the impaired balance on collateral dependent loans if it is determined that such amount represents a confirmed loss. Loans determined to be impaired with a specific allowance are excluded from the general allowance so as not to double-count the loss exposure.

Qualitative factors: This component of the allowance is management's best estimate of the probable impact that various qualitative factors may have on the loan portfolio. It is not allocated to specific loans or groups of loans, but rather is intended to absorb losses caused by several factors, including changes in the nature and volume of the portfolio, changes in the terms of loans, changes in lending policies and procedures, underwriting collection practices, changes in international, national, regional, and local economic and business conditions, changes in the experience and ability of lending management and staff, changes in the volume and severity of past due loans, changes in the volume of non-accrual loans, changes in the volume and severity of adversely classified or graded loans, changes in the quality of the Company's loan review system, changes in the value of underlying collateral, the existence and effect of any concentrations of credit, changes in the level of concentrations of credit and the effect of other external factors such as competition and legal and regulatory requirements.

Although management believes the allowance to be adequate, ultimate losses may vary from its estimates. The Board of Directors review the adequacy of the allowance quarterly, including consideration of current economic conditions, known and inherent risks in the portfolio, adverse situations that may affect the borrower's ability to repay, the estimated value of any underlying collateral, or past loan experience and other factors. If the Board of Directors and management determine that changes are warranted based on those reviews, the allowance is adjusted. In addition, the Company's primary regulators, the FDIC and the CDBO, review the adequacy of the allowance as an integral part of their examination process. These regulatory agencies may require additions to the allowance based on their judgment about information available at the time of their examinations.

December 31, 2015 and 2014

NOTE D – ALLOWANCE FOR LOAN LOSSES AND CREDIT QUALITY (Continued)

Credit Quality of Loans

The Company assigns a risk rating to loans over a certain threshold and periodically performs detailed reviews of all such loans to identify credit risks and to assess the overall collectability of the portfolio. During these internal reviews, management monitors and analyzes the financial condition of borrowers and guarantors, trends in the industries in which borrowers operate and the fair values of collateral securing these loans. These credit quality indicators are used to assign a risk rating to each individual loan. These risk ratings can be grouped into the following major categories, defined as follows:

Pass: A pass loan is a strong credit with no existing or known potential weaknesses deserving of management’s close attention.

Watch List: A watch list loan has significant weaknesses resulting from performance trends or management concerns.

Special Mention: A special mention loan is currently protected, but is weak due to negative trends in the financial statements of the borrower and current cash flow problems, among other criteria. Special mention loans are not adversely classified and do not expose the Company to sufficient risk to warrant adverse classification.

Substandard: A substandard loan has well-defined weaknesses where a payment default and/or a loss is possible, but not yet probable. Cash flow is insufficient to service the debt, with prospects that the condition is permanent. Loans classified as substandard are inadequately protected by the current net worth and repayment capacity of the borrower and there is a likelihood that collateral will have to be liquidated and/or guarantor called upon to repay the debt.

Doubtful: Loans classified as doubtful have characteristics of those classified as substandard but available information suggests it is unlikely that the loan will be repaid in its entirety. Cash flow is insufficient to service the debt. If the current material adverse trends continue, it is unlikely the borrower will have the ability to meet the terms of the loan agreement. It may be difficult to project the exact amount of loss, but the probability of some loss is greater than 50%.

Loss: Loans classified as loss have characteristics those classified as of doubtful but the loan will not be repaid in full. Debt service coverage clearly reflects the borrower’s inability to service the debt. The borrower cannot generate sufficient cash flow to cover fixed charges. All near-term and long-term trends concerning cash flow and earnings are negative. Collateral and guarantees provide no support.

The following table shows the loan portfolio allocated by management’s internal risk ratings at December 31, 2015 and 2014:

	Commercial Real Estate	Commercial	Construction and Land	Residential	Individual	Agriculture	Total
<u>2015</u>							
Grade:							
Pass	\$ 140,170,707	\$ 14,194,278	\$ 9,908,918	\$ 15,787,563	\$ 26,227,912	\$ 9,148,749	\$ 215,438,127

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2015 and 2014

NOTE D – ALLOWANCE FOR LOAN LOSSES AND CREDIT QUALITY (Continued)

Troubled Debt Restructurings

The terms of certain loans have been modified in troubled debt restructurings. The modification of the terms of such loans included one or more of a combination of the following: a reduction of the stated interest rate of the loan at a stated rate of interest lower than the current market rate for new debt with similar risk; and extension of the maturity date; or a permanent reduction of the recorded investment in the loan. At December 31, 2015 and 2014, the Company had \$542,451 and \$444,944, respectively, of loans to borrowers whose loan terms were modified in troubled debt restructurings. The Company had allocated \$25,212 and \$3,485 of specific reserves to these troubled debt restructurings as of December 31, 2015 and 2014, respectively. The Company has not committed to lend additional amounts as of December 31, 2015 and 2014 to borrowers with outstanding loans that are classified as troubled debt restructurings.

The following table presents loans by class that were modified as troubled debt restructurings and restructuring for which there was a default (defined as 90 or more days past due based on restructured terms) within twelve months of the modification date. There were no loans in either of these categories at December 31, 2014. There were no restructurings for which there was a default within twelve months of the modification date at December 31, 2015. The loans modified as troubled debt restructurings during the year ended December 31, 2015 were as follows:

	2015	
	Pre-Modification	Post-Modification
	Outstanding	Outstanding
	Number of Contracts	Recorded Investment
Troubled debt restructurings		
Commercial loans	1	\$ 99,999
Construction and land loans	1	\$ 536,023
		\$ 74,212
		\$ 427,212

There were no charge-offs of troubled debt restructurings modified in the past twelve months described in the table above during 2015.

NOTE E – PREMISES AND EQUIPMENT

Premises and equipment consisted of the following at December 31:

	2015	2014
Land	\$ 727,920	\$ 727,920
Building and improvements	4,730,218	4,614,954
Furniture, fixtures and equipment	1,915,535	1,857,014
	7,373,673	7,199,888
Less: Accumulated depreciation	(3,184,624)	(2,833,725)
	\$ 4,189,049	\$ 4,366,163

Depreciation and amortization included in occupancy expense totaled \$350,899 and \$346,515 in 2015 and 2014, respectively.

REDWOOD CAPITAL BANCORP AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2015 and 2014

NOTE F – MORTGAGE SERVICING RIGHTS

The following table presents the changes in the Bank’s mortgage servicing rights for the year ended December 31, 2015:

	<u>2015</u>	<u>2014</u>
Fair value, beginning of year	\$ 689,036	\$ 604,081
Additions for new mortgage servicing rights capitalized	31,670	77,513
Change in fair value due to changes in model inputs and assumptions	<u>34,925</u>	<u>7,442</u>
Fair value, end of year	<u>\$ 755,631</u>	<u>\$ 689,036</u>
Balance of mortgage loans serviced for others	\$ 92,394,105	\$ 82,470,374
Mortgage servicing rights as a percentage of serviced loans	0.82%	0.83%

The amounts of contractually specified servicing fees, late fees and ancillary fees earned, recorded in mortgage banking revenue on the consolidated statements of operations, were \$214,026 and \$193,266 for the years ended December 31, 2015 and 2014, respectively. Changes in fair value are also included in mortgage banking revenue on the consolidated statements of operations.

The fair value of mortgage servicing rights is determined using a discounted cash flow model. In order to determine the fair value of the mortgage servicing rights, the present value of expected future cash flows is estimated. Assumptions used include market discount rates, anticipated prepayment speeds, delinquency and foreclosure rates, and ancillary fee income. Key assumptions used in measuring the fair value of mortgage servicing rights as of December 31, 2015 and 2014 include a discount rate of 11%. A proprietary market implied prepayment model is used by the independent valuation group.

The expected life of the loans can vary from management’s estimates due to prepayments by borrowers, especially when rates fall. Prepayments in excess of management’s estimates would negatively impact the recorded value of the mortgage servicing rights. The value of the mortgage servicing rights is also dependent upon the discount rate used in the model, which is based on current market rates. A significant increase in the discount rate would reduce the value of mortgage servicing rights.

NOTE G – INTEREST-BEARING DEPOSITS

Interest-bearing deposits consisted of the following at December 31:

	<u>2015</u>	<u>2014</u>
Negotiable order of withdrawal (NOW)	\$ 65,708,040	\$ 51,624,342
Savings and money markets	116,090,845	99,801,871
Time	<u>40,577,836</u>	<u>41,253,165</u>
	<u>\$ 222,376,721</u>	<u>\$ 192,679,378</u>

REDWOOD CAPITAL BANCORP AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2015 and 2014

NOTE G – INTEREST-BEARING DEPOSITS (Continued)

Interest expense on these deposits for the years ended December 31 is as follows:

	<u>2015</u>	<u>2014</u>
Negotiable order of withdrawal (NOW)	\$ 66,577	\$ 66,733
Savings and money markets	273,484	232,819
Time	<u>258,155</u>	<u>178,525</u>
	<u>\$ 598,216</u>	<u>\$ 515,816</u>

The maturities of time deposits at December 31 are as follows:

	<u>2015</u>	<u>2014</u>
Three months or less	\$ 9,642,148	\$ 11,732,281
Over three months through twelve months	18,279,243	17,995,609
Over one year through three years	9,652,620	10,651,758
Over three years	<u>3,003,825</u>	<u>873,517</u>
	<u>\$ 40,577,836</u>	<u>\$ 41,253,165</u>

Time deposits that meet or exceed the FDIC insurance limit of \$250,000 at year-end 2015 and 2014 were \$10,343,216 and \$6,950,338, respectively.

NOTE H – LENDING AGREEMENTS

The Company has federal funds line of credit agreements with other banks. The maximum borrowings available under these lines amount to \$16,000,000 at December 31, 2015 and 2014. There were no borrowings outstanding under these agreements at December 31, 2015 and 2014.

The Company has an agreement to borrow from the Federal Home Loan Bank to the extent of pledged assets, up to 25% and 25% of total assets as of December 31, 2015 and 2014, respectively. Assets pledged under the agreement at December 31, 2015 totaled \$317,245,915, resulting in a limit on borrowings of \$79,311,479. Assets pledged under the agreement at December 31, 2014 totaled \$280,219,233, resulting in a limit on borrowings of \$70,054,808. The Company also maintains a letter of credit with the Federal Home Loan Bank of \$3,000,000, as of December 31, 2015 and 2014, which serves as collateral for public and other deposits and is collateralized by a portion of the loans discussed above. No amounts were outstanding under this agreement as of December 31, 2015 and 2014.

The Company has an agreement to borrow from the Federal Reserve Bank by obtaining advances or discounting eligible paper to the extent of pledged collateral. Promissory notes and deeds of trust on the Bank's loans totaling \$5,329,451 and \$5,630,444 for 2015 and 2014, respectively, were held by the Federal Reserve Bank as collateral. There were no borrowings outstanding under this agreement at December 31, 2015 and 2014.

REDWOOD CAPITAL BANCORP AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2015 and 2014

NOTE H – LENDING AGREEMENTS (Continued)

In November 2015, the Company borrowed an additional \$4,156,250 under a new agreement from an existing lender to finance the redemption of Series C Preferred Stock issued to the U.S. Treasury in December 2015, as mentioned in Note J. Interest on the outstanding balance is calculated at a variable rate equal to the prime rate, plus 0.45%. The interest rate at December 31, 2015 and 2014 was 3.70% and 4.00%, respectively. The loan is amortized over a 10 year period. Quarterly principal payments of \$150,781 are due for 21 consecutive quarters concluding with one final lump sum payment of \$4,523,438. The outstanding principal balance at December 31, 2015 was \$6,031,250 and \$2,109,375, respectively. At December 31, 2015, the loan matures as follows:

2016	\$	603,125
2017		603,125
2018		4,825,000
	\$	<u>6,031,250</u>

NOTE I – OTHER EXPENSES

Other expenses consisted of the following for the years ended December 31:

	2015	2014
Data processing	\$ 637,598	\$ 561,265
Director and shareholder	418,663	355,383
Marketing and promotion	405,574	355,496
Professional fees	391,053	389,541
Insurance expense	301,871	286,433
Loan and collection expense	204,855	170,327
Operating expense	198,834	206,657
Miscellaneous employee expense	103,226	79,405
Telephone expense	96,787	84,014
Stationery and forms	87,291	97,804
Postage and delivery	75,113	70,030
Dues and memberships	47,585	48,651
Security expense	8,049	6,584
Operational losses	4,688	11,908
Subscriptions	3,740	9,336
Other non-interest expense		3,815
	<u>\$ 2,984,927</u>	<u>\$ 2,736,649</u>

NOTE J – PREFERRED STOCK

On July 21, 2011, the Company issued 7,310 shares of Series C preferred stock at \$7,310,000 under the U.S. Department of Treasury's Small Business Lending Fund (SBLF). The Series C preferred stock has a cumulative dividend for the first two and a half years of 1 to 5% per annum, which is dependent on the amount of loans to small businesses. The Company had sufficient small business lending to retain the 1% interest rate in 2011 to 2014. On December 15, 2015, the Company redeemed the \$7,310,000 of Series C Preferred Stock issued to the U.S. Treasury under the Small Business Lending Fund preferred stock program. The redemption was completed with a payment to the U.S. Treasury of \$7,310,000 plus accrued dividends and represents full payment of all SBLF obligations and cancellation of all equity interest in the Company held by the Treasury. Preferred stock dividends totaled \$63,792 and \$73,100 in 2015 and 2014, respectively.

REDWOOD CAPITAL BANCORP AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2015 and 2014

NOTE K – RETIREMENT PLANS

The Company has a defined contribution retirement plan covering substantially all of the Company's employees. Employees may elect to have a portion of their compensation contributed to the plan in conformity with the requirements of Section 401(k) of the Internal Revenue Code. The Company will make contributions equal to 100% of the effective deferral made by the employees, up to a maximum of 4% of the employees' eligible earnings. Salaries and employee benefits expense includes the Company's contributions to the plan of \$140,000 and \$130,925 during 2015 and 2014, respectively.

The Company has single premium life insurance policies in connection with the retirement plans for thirteen key officers. The policies provide protection against the adverse financial effects from the death of key officers and to provide income to offset expenses associated with the plan. The officers are insured under the policies, but the Company is the owner and beneficiary. At December 31, 2015 and 2014, the cash surrender value of these policies totaled \$6,256,774 and \$6,065,116, respectively.

The Company has a retirement plan that is unfunded, which provides for the Company to pay the officers specified amounts for specified periods after retirement and allow them to defer a portion of current compensation in exchange for the Company's commitment to pay a deferred benefit at retirement. Directors are also eligible to participate in the deferred compensation plan. If death occurs prior to or during retirement, the Company will pay the officer's beneficiary or estate the benefits set forth in the plan. Deferred compensation is vested as to the amounts deferred. Liabilities are recorded for the estimated present value of future salary continuation benefits. At December 31, 2015 and 2014, the liability recorded for the executive officer supplemental retirement plan totaled \$307,210 and \$266,293, respectively. The amount of expense related to this plan for 2015 and 2014 was \$40,917 and \$34,192, respectively. At December 31, 2015 and 2014, the liability recorded for the deferred compensation plan totaled \$280,428 and \$229,076, respectively.

NOTE L – INCOME TAXES

The provision for income taxes was comprised of the following at December 31:

	2015	2014
Current		
Federal	\$ 1,550,836	\$ 1,216,018
State	431,329	277,291
	<u>1,982,165</u>	<u>1,493,309</u>
Deferred		
Federal	(587,909)	(487,113)
State	(55,839)	8,701
	<u>(643,748)</u>	<u>(478,412)</u>
Provision for income taxes	<u>\$ 1,338,417</u>	<u>\$ 1,014,897</u>

REDWOOD CAPITAL BANCORP AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2015 and 2014

NOTE L – INCOME TAXES (Continued)

The following is a reconciliation of income taxes computed at the Federal statutory rate of 34% to the effective rate used for the provision for income taxes for the years ended December 31:

	<u>2015</u>	<u>2014</u>
Income benefit at the Federal statutory rate	\$ 1,228,282	\$ 1,028,776
State franchise tax benefit, less Federal income tax effect	258,459	216,479
Earnings on cash surrender value of life insurance	(78,875)	(35,241)
Tax exempt municipal securities	(36,777)	(55,054)
Nondeductible expenses and other	(32,672)	(84,980)
Revision in enterprise zone hiring and sales credits		<u>(55,083)</u>
Net provision for income taxes	<u>\$ 1,338,417</u>	<u>\$ 1,014,897</u>

The tax effects of temporary differences that give rise to the components of the net deferred tax assets as of December 31 were as follows:

	<u>2015</u>	<u>2014</u>
Deferred tax assets:		
Allowance for loan losses	\$ 1,103,681	\$ 952,812
State taxes	160,900	123,807
Non-qualified restricted stock	149,793	78,708
Salary continuation accrual	126,430	109,591
Depreciation	124,133	49,369
Deferred compensation	115,408	94,275
Accrued vacation	64,977	64,977
Allowance for loan commitments	28,808	24,693
Non-accrual interest	28,506	72,738
Other	47,375	11,314
Total deferred tax assets	<u>1,950,011</u>	<u>1,582,284</u>
Deferred tax liabilities:		
Mortgage servicing rights	(310,975)	(283,569)
Available-for-sale securities	(34,046)	(47,020)
Federal Home Loan Bank dividends	(24,940)	(24,940)
Total deferred tax liabilities	<u>(369,961)</u>	<u>(355,529)</u>
Net deferred tax assets	<u>\$ 1,580,050</u>	<u>\$ 1,226,755</u>

Amounts presented for the tax effects of temporary differences are based upon estimates and assumptions and could vary from amounts ultimately reflected on the Company's tax returns. Accordingly, the variances from amounts reported in prior years are primarily adjustments to conform to the tax returns as filed. As of December 31, 2015 and 2014, the Company had income tax receivable of \$90,249 and \$103,953, respectively.

REDWOOD CAPITAL BANCORP AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2015 and 2014

NOTE L – INCOME TAXES (Continued)

The Company and its subsidiary file an income tax return in the U.S. federal jurisdiction and a franchise tax return in the State of California jurisdiction. The Company is no longer subject to U.S. federal income tax examinations and State franchise tax examinations by taxing authorities for years prior to 2012 and 2011, respectively.

There have been no adjustments identified for unrecognized tax benefits requiring an adjustment to the income statement. The Company recognizes interest accrued and penalties related to unrecognized tax benefits in tax expense. The Company has recognized no interest or penalties since this pronouncement was implemented.

The California Franchise Tax Board (FTB) audited the Company's 2010 and 2009 franchise tax returns and has asserted that enterprise zone loan net interest deductions were improperly taken during these tax years. The Company agreed to pay \$43,267 in taxes and \$5,875 in interest to settle this claim in 2014. The FTB is currently auditing the Company's 2011 and 2012 franchise tax returns related to the enterprise zone loan interest deductions. The Company accrued approximately \$43,000 as a potential settlement for 2011 and 2012 at December 31, 2015. However, the ultimate resolution of this matter could differ from management's estimate and could result in additional franchise tax being expensed or credited, which would affect the Company's effective tax rate. The Company expects the exam to be completed during the next twelve months.

NOTE M– EARNINGS PER SHARE

The following is a computation of basic and diluted earnings per share for the years ended December 31, 2015 and 2014.

	<u>2015</u>	<u>2014</u>
Basic:		
Net income	<u>\$ 2,274,177</u>	<u>\$ 2,010,915</u>
Weighted-average common shares outstanding	<u>1,874,291</u>	<u>1,849,787</u>
Earnings per share	<u>\$ 1.21</u>	<u>\$ 1.09</u>
Diluted:		
Net income	<u>\$ 2,274,177</u>	<u>\$ 2,010,915</u>
Weighted-average common shares outstanding	1,874,291	1,849,787
Net effect of dilutive securities - based on the Treasury stock method using average market price		
Stock options		400
Unvested restricted stock	<u>8,348</u>	<u>2,405</u>
Weighted-average common shares outstanding and common stock equivalents	<u>1,882,639</u>	<u>1,852,592</u>
Earnings per share - assuming dilution	<u>\$ 1.21</u>	<u>\$ 1.09</u>

Options to purchase 12,000 shares of common stock at \$14.67 per share were outstanding during 2015 but were not included in the computation of diluted earnings per share because the options' exercise price and stock issuance price was greater than the average market price of the common shares. Options to purchase 24,000 shares of common stock at \$13.33 to \$14.67 per share were outstanding during 2014 but were not included in the computation of diluted earnings per share because the options' exercise price and stock issuance price was greater than the average market price of the common shares. Nonvested restricted stock grants for 40,000 shares of common stock at \$11.95 per share were outstanding during 2014 were not included in the computation of diluted earnings per share because the grants' fair value at the grant date was greater than the average market price of the common shares.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2015 and 2014

NOTE N – STOCK OPTION PLAN

The Company has a stock option plan established in 2004 under which incentive and nonstatutory stock options and restricted stock may be granted. The Company's Stock Option Plan provides for the granting of a maximum of 495,000 shares of the Company's common stock to directors, key employees and consultants at an exercise price not less than the fair market value of the shares on the date of grant and for a term of no more than 10 years. Options granted vest at a rate of 20% per year over five years from the date the option is granted. Generally, if an optionee's continuous status as a director, employee or consultant is terminated for various reasons, the nonvested options expire.

A summary of stock option activity follows for the years ended December 31:

	Stock Options			
	2015		2014	
	Weighted-Average Exercise Price	Shares	Weighted-Average Exercise Price	Shares
Shares under option at beginning of year	\$ 14.00	24,000	\$ 9.68	58,381
Options exercised			6.67	(26,758)
Options settled in cash			6.67	(1,196)
Options forfeited/expired	13.33	<u>(12,000)</u>	6.67	<u>(6,427)</u>
Shares under option at end of year	14.67	<u>12,000</u>	14.00	<u>24,000</u>
Options exercisable at end of year		<u>12,000</u>		<u>24,000</u>

Following is the weighted-average contractual term of stock options outstanding for the year ended December 31:

	2015	2014
Weighted-average remaining contractual term:		
Outstanding shares	0.21 years	0.87 years
Exercisable shares	0.21 years	0.87 years

The options have no intrinsic value at December 31, 2015 and 2014. Upon the exercise of stock options, new shares are issued. The total amount of cash received from the exercise of stock options during 2014 was \$177,917. There were no options exercised in 2015. The tax benefits realized for the tax deductions from stock options exercised during 2014 was \$8,572. The total amount of cash paid for the repurchase of stock during 2014 was \$2,559. There were no stock option repurchases in 2015. The tax benefits realized for the tax deductions from stock options exercised and shares repurchased during 2014 was \$1,053.

REDWOOD CAPITAL BANCORP AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2015 and 2014

NOTE N – STOCK OPTION PLAN (Continued)

A summary of restricted stock activity follows for the years ended December 31:

	Restricted Stock					
	2015			2014		
	Shares	Weighted-Average Grant Date Fair Value	Aggregate Intrinsic Value	Shares	Weighted-Average Grant Date Fair Value	Aggregate Intrinsic Value
Nonvested at beginning of year	133,005	\$ 7.94		27,056	\$ 7.94	
Granted				143,800	9.80	
Shares vested and issued	(24,732)	9.22		(27,851)	8.77	
Forfeited	<u>(800)</u>	9.80		<u>(10,000)</u>	9.80	
Nonvested at end of year	<u>107,473</u>	10.58	<u>\$ 1,235,917</u>	<u>133,005</u>	9.67	<u>\$ 1,327,390</u>

As of December 31, 2015 and 2014, there was \$956,996 and \$1,286,570 of total unrecognized compensation cost related to nonvested restricted stock. That cost is expected to be recognized over a weighted-average period of 3.34 and 4.23 years, respectively.

Total compensation cost for all share-based payments recognized in net income for 2015 and 2014 totaled \$363,977 and \$191,250, respectively. A tax benefit of \$149,777 and \$78,699 was recognized during 2015 and 2014, respectively, related to this compensation cost.

NOTE O – RELATED PARTY TRANSACTIONS

During the normal course of business, the Company has entered into transactions with its directors, executive officers, significant shareholders and their affiliates (related parties). The aggregate amount of loans to such related parties totaled \$4,364,001 and \$6,864,411 at December 31, 2015 and 2014, respectively. At December 31, 2015 and 2014, commitments to related parties of \$3,152,040 and \$1,696,700, respectively, were undisbursed. The Company has received deposits from directors and officers and their related interests totaling \$16,052,254 and \$8,152,360 at December 31, 2015 and 2014, respectively.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2015 and 2014

NOTE P – CONTINGENT LIABILITIES AND COMMITMENTS

Financial Instruments with Off-Balance-Sheet Risk: The Company's financial statements do not reflect various commitments and contingent liabilities which arise in the normal course of business and which involve elements of credit risk, interest rate risk and liquidity risk. These commitments and contingent liabilities are commitments to extend credit, standby letters of credit and credit card arrangements. A summary of the Company's commitments and contingent liabilities at December 31, 2015 and 2014 are as follows:

	<u>Contractual Amounts</u>	
	<u>2015</u>	<u>2014</u>
Commitments to extend credit	\$ 55,185,363	\$ 45,822,380
Standby letters of credit	477,255	289,079
Credit card arrangements	562,500	131,000

Commitments to extend credit, standby letters of credit and credit card arrangements include exposure to some credit loss in the event of nonperformance of the customer. The Company's credit policies and procedures for credit commitments and financial guarantees are the same as those for extension of credit that are recorded on the balance sheet. Because most of these instruments have fixed maturity dates, and because many of them expire without being drawn upon, they do not generally present any significant liquidity risk to the Company. Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. The Company evaluates each customer's credit worthiness on a case-by-case basis. The amount of collateral obtained, if deemed necessary by the Company upon extension of credit, is based on management's credit evaluation of the customer. Collateral held varies but may include accounts receivable, inventory, deeds of trust on residential real estate and income-producing commercial properties.

Standby letters of credit are conditional commitments issued by the Company to guarantee the performance of a customer to a third party. Those guarantees are primarily issued to support public and private borrowing arrangements. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending facilities to customers.

The Company did not incur any losses on its commitments in 2015 and 2014.

Lease arrangement: On February 1, 2014, the Company entered into an agreement with Humboldt State University (University) for the transfer of a Company-owned building to the University in exchange for a reduced lease rate on a building owned by the University that the Company is leasing from the University. The initial term of the lease will be five years with an option to extend the lease for seven periods of five years. The lease will be extended automatically the first five periods unless the Bank elects to decline the lease option. The monthly rental rate will be \$5,480 per month, but the rent will be reduced by \$3,327 per month for the first twenty years of the lease as consideration for the transfer of the Bank building valued at \$505,000 and the Bank paying for \$95,000 of renovation costs at the Bank-owned building. The \$600,000 is recorded as prepaid rent and is being amortized into rent expense on a straight line basis over 20 years. The net rent will be increased every five years by the change in the consumer price index. Rental expense was \$60,156 in 2015 and \$55,143 in 2014. The following table summarizes future minimum commitments under the non-cancellable operating lease:

	<u>Gross rent</u>	<u>Rent Reduction</u>	<u>Net Rent</u>
Years ended December 31:			
2016	\$ 70,080	\$ (39,924)	\$ 30,156
2017	70,080	(39,924)	30,156
2018	70,080	(39,924)	30,156
2019	5,840	(3,327)	2,513
	<u>\$ 216,080</u>	<u>\$ (123,099)</u>	<u>\$ 92,981</u>

REDWOOD CAPITAL BANCORP AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2015 and 2014

NOTE Q – CONCENTRATIONS OF CREDIT RISK

Most of the Company's business activity is with customers located within the State of California, primarily in and around the counties of Humboldt, Del Norte, and Trinity. Most of the Company's loans have been granted to customers in the Company's market area. General economic conditions or natural disasters affecting the primary market area could affect the ability of customers to repay loans and the value of real property used as collateral. The loans are expected to be repaid from cash flow or proceeds from the sale of selected assets of the borrowers. The Company requires that all loans have adequate collateral to secure the loan or that the borrower has evidence of sufficient cash flows to repay loans when the loans are made. All collateral must have an appraisal, if applicable, and collateral is generally secured by liens. The Company's access to this collateral is through judicial procedures.

The concentrations of credit by type of loan are set forth in Note C. Approximately 94% of the Company's loans are collateralized by real estate in the Company's service area. The National Banking Laws, Title 12 of the United States Code, generally restricts loans to a single borrower or group of related borrowers and investments by the Company to 25% of the sum of the Company's equity capital plus the allowance for loan losses, subject to certain adjustments. The Company evaluates each customer's credit worthiness on a case-by-case basis. The amount of collateral obtained, if deemed necessary by the Company, upon extension of credit, is based on management's credit evaluation of the customer. Collateral held varies but may include residential and commercial real property, marketable securities, accounts receivable, inventory, equipment and savings accounts.

The concentrations by type of investment security are set forth in Note B. The Company places its investments primarily in financial instruments backed by the U.S. Government and its agencies. At December 31, 2015, the Bank has \$33,947,000 in federal funds sold to the Federal Reserve Bank, which represents 134% of the Bank's net worth. Deposits with two correspondent banks were in excess of federally insured limits by \$189 at December 31, 2015. While management recognizes the inherent risks involved in such concentrations, this concentration provides the Bank with an effective and cost efficient means of managing its liquidity position and item processing needs. Management closely monitors the financial condition of their correspondent banks on a continuous basis. The Bank also maintains additional deposit accounts with other correspondent banks should management determine that a change in its correspondent banking relationship would be appropriate.

NOTE R – REGULATORY MATTERS

The Bank is subject to the dividend restrictions set forth by the FDIC. Under such restrictions, the Bank may not, without the prior approval of the FDIC, declare dividends in excess of the sum of the current year's net income plus the retained earnings from the prior two years. As of December 31, 2015, \$1,333,126 was available for cash dividend distribution without prior approval.

The Bank is subject to various regulatory capital requirements administered by its primary federal regulator, the FDIC. Failure to meet minimum capital requirements can initiate certain mandatory – and possibly additional discretionary – actions by regulators that, if undertaken, could have a direct material effect on the Bank's financial statements. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, the Bank must meet specific capital guidelines that involve quantitative measures of the Bank's assets, liabilities, and certain off-balance-sheet items as calculated under U.S. GAAP, regulatory reporting requirements and regulatory capital standards. The Bank's capital amounts and classification are also subject to qualitative judgments by the regulators about components, risk weightings, and other factors.

Quantitative measures established by regulation to ensure capital adequacy require the Bank to maintain minimum amounts and ratios (set forth in the table below) of total and Tier I capital (as defined in the regulations) to risk-weighted assets (as defined), and of Tier I capital (as defined) to average assets (as defined). Management believes, as of December 31, 2015, that the Bank meets all capital adequacy requirements to which it is subject.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2015 and 2014

NOTE R – REGULATORY MATTERS (Continued)

As of December 31, 2015, the most recent notification from the FDIC categorized the Bank’s as well capitalized under the regulatory framework for prompt corrective action. To be categorized as well capitalized the Bank must maintain minimum total risk-based, Tier I risk-based, Common Equity Tier I risk-based, and Tier I leverage ratios as set forth in the table. There are no conditions or events since that notification that management believes have changed the Bank’s category. The Bank’s actual capital amounts and ratios are also presented in the table. There are no conditions or events since that notification that management believes have changed the institution’s category.

Basel III Capital Rules Effective January 1, 2015.

In July 2013, the Federal Deposit Insurance Corporation (“FDIC”), published interim final rules (the “Basel III Capital Rules”) establishing a new comprehensive capital framework for U.S. banking organizations. The rules implement the Basel Committee’s December 2010 framework known as “Basel III” for strengthening international capital standards as well as certain provisions of the Dodd-Frank Act. The Basel III Capital Rules substantially revise the risk-based capital requirements applicable to bank holding companies and depository institutions, including the Bank, compared to the current U.S. risk-based capital rules. The Basel III Capital Rules define the components of capital and address other issues affecting the numerator in banking institutions’ regulatory capital ratios.

The Basel III Capital Rules also address risk weights and other issues affecting the denominator in banking institutions’ regulatory capital ratios and replace the existing risk-weighting approach, which was derived from the Basel I capital accords of the Basel Committee, with a more risk sensitive approach based, in part, on the standardized approach in the Basel Committee’s 2004 “Basel II” capital accords. The Basel III Capital Rules also implement the requirements of Section 939A of the Dodd-Frank Act to remove references to credit ratings from the federal banking agencies’ rules. The Basel III Capital Rules were effective for the Bank on January 1, 2015 (subject to a phase-in period for certain provisions).

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2015 and 2014

NOTE R – REGULATORY MATTERS (Continued)

Under the Basel III Capital Rules, in order to avoid limitations on capital distributions, including dividend payments and certain discretionary bonus payments to executive officers, a banking organization must hold a capital conservation buffer composed of common equity tier 1 capital above its minimum risk-based capital requirements. The effects of accumulated other comprehensive income items are not excluded from common equity tier 1 capital; however, the Bank made a one-time permanent election to exclude these items in order to avoid significant variations in the level of capital depending on the impact of interest rate fluctuations on the fair value of the Bank's investments portfolio. Phase-in of the capital conservation buffer requirements will begin January 1, 2016 and be fully phased-in on January 1, 2019. A banking organization with a buffer greater than 2.5 percent would not be subject to limits on capital distributions or discretionary bonus payments. The Bank does not expect to be subject to limits on capital distributions or discretionary bonus payments due to these requirements.

NOTE S – FAIR VALUE MEASUREMENT

The following tables present information about financial instruments, whether or not recognized or recorded at fair value in the balance sheet. In general, fair values are determined by:

Level 1 inputs utilize quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access.

Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. Fair values determined by Level 2 inputs utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 inputs are unobservable inputs for the asset or liability, and include situations where there is little, if any market activity for the asset or liability.

In cases where quoted market prices are not available, fair values are based on estimates using present value or other valuation techniques. Those techniques are significantly affected by the assumptions used, including the discount rate and estimates of future cash flows. In that regard, the derived fair value estimates cannot be substantiated by comparison to independent markets and, in many cases, could not be realized in immediate settlement of the instruments.

Fair value is a market-based measure considered from the perspective of a market participant who holds the asset or owes the liability rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, the Company's own assumptions are set to reflect those that market participants would use in pricing the asset or liability at the measurement date. The Company uses prices and inputs that are current as of the measurement date, including during periods of market dislocation, the observability of prices and inputs may be reduced for many instruments. This condition could cause an instrument to be reclassified from Level 1 to Level 2 or Level 2 to Level 3.

REDWOOD CAPITAL BANCORP AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2015 and 2014

NOTE 5 – FAIR VALUE MEASUREMENT (Continued)

The carrying amounts in the preceding table are included in the balance sheet under the applicable captions. The following methods and assumptions were used by the Company in estimating its fair value disclosures for financial instruments:

Cash and due from banks, federal funds sold and interest-bearing deposits in other financial institutions: The carrying amount approximates fair value and is classified as level 1.

Investment securities: Fair values for investment securities are based on quoted market prices, where available, and are classified as level 1. If quoted market prices are not available, fair values are based on quoted market prices of comparable instruments and indications of value provided by brokers and are classified as level 2. The carrying amount of accrued interest receivable approximates its fair value and is classified as level 1.

Mortgages held for sale: The fair value for mortgages held for sale is based on the actual selling price, if available or quoted market prices of comparable loans, which are classified as level 2.

Loans, net: For variable-rate loans that reprice frequently and fixed rate loans that mature in the near future, with no significant change in credit risk, fair values are based on carrying amounts, resulting in a level 3 classification. The fair values for other fixed rate loans are estimated using discounted cash flow analysis, based on interest rates currently being offered for loans with similar terms to borrowers of similar credit quality, resulting in a level 3 classification. Loan fair value estimates include judgments regarding future expected loss experience and risk characteristics and are adjusted for the allowance for loan losses. The carrying amount of accrued interest receivable approximates its fair value and is classified as level 1.

Cash surrender value of life insurance: The carrying amount approximates fair value and is classified as level 1.

FHLB and correspondent bank stock: For FHLB and correspondent bank stock, the carrying amount is equal to the par value at which the stock may be sold back to FHLB or the correspondent bank, which approximates fair value and is classified as level 1.

Deposits: The fair values disclosed for demand deposits (for example, interest-bearing checking, money market and savings accounts) are, by definition, equal to the amount payable on demand at the reporting date (that is, their carrying amounts), resulting in a level 1 classification. The fair values for certificates of deposit are estimated using a discounted cash flow calculation that applies interest rates currently being offered on the certificates to a schedule of aggregated contractual maturities on such time deposits, resulting in a level 2 classification. The carrying amount of accrued interest payable approximates fair value and is classified as level 1.

Borrowings: The carrying amount approximates fair value and is classified as level 1.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2015 and 2014

NOTE S – FAIR VALUE MEASUREMENT (Continued)

The following table presents information about the Company's assets and liabilities measured at fair value on a recurring and nonrecurring basis as of December 31, 2015 and 2014, and indicate the fair value hierarchy of the valuation techniques utilized by the Company to determine such fair value.

	Fair Value	Level 1	Level 2	Level 3	Total Gains (Losses)
December 31, 2015:					
Measured at fair value on a recurring basis					
Investment securities	\$ 22,386,210		\$ 22,386,210		\$ 82,736
Mortgage servicing rights	755,631			\$ 755,631	34,925
Total recurring	<u>\$ 23,141,841</u>	<u>\$ -</u>	<u>\$ 22,386,210</u>	<u>\$ 755,631</u>	<u>\$ 117,661</u>
Measured at fair value on a nonrecurring basis					
Impaired loans	\$ 688,815			\$ 688,815	\$ (91,815)
Foreclosed real estate	115,836			115,836	
Total nonrecurring	<u>\$ 804,651</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 804,651</u>	<u>\$ (91,815)</u>
December 31, 2014:					
Measured at fair value on a recurring basis					
Investment securities	\$ 20,913,595		\$ 20,913,595		\$ 114,265
Mortgage servicing rights	689,036			\$ 689,036	7,442
Total recurring	<u>\$ 21,602,631</u>	<u>\$ -</u>	<u>\$ 20,913,595</u>	<u>\$ 689,036</u>	<u>\$ 121,707</u>
Measured at fair value on a nonrecurring basis					
Impaired loans	\$ 1,120,929			\$ 1,120,929	\$ (51,952)
Total nonrecurring	<u>\$ 1,120,929</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 1,120,929</u>	<u>\$ (51,952)</u>

The following methods were used to estimate the fair value of each class of financial instrument above:

Securities Available-for-Sale: To value securities available-for-sale, the Company obtains fair value measurements from an independent pricing service. The fair value measurement considers observable data that may include dealer quotes, market spreads, cash flows, the U.S. Treasury yield curve, live trading levels, trade execution data, market consensus prepayment speeds, credit information and the bond's terms and conditions among other things.

REDWOOD CAPITAL BANCORP AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2015 and 2014

NOTE 5 – FAIR VALUE MEASUREMENT (Continued)

Mortgage Servicing Rights: Mortgage servicing rights do not trade in an active market with readily observable prices. Accordingly, the Company determines the fair value of mortgage servicing rights using a valuation model that calculates the present value of estimated future net servicing income. Fair value measurements of the mortgage servicing rights use significant unobservable inputs and, accordingly, are classified as Level 3. Total gains recognized in earnings during 2015 and 2014 were \$34,925 and \$7,442, respectively, which are reflected in mortgage banking revenue, on the consolidated statements of operations.

Impaired Loans: The fair value of impaired loans is estimated using one of several methods, including collateral value, market value of similar debt, enterprise value, liquidation value and discounted cash flows. Those impaired loans not requiring an allowance represent loans for which the fair value of the expected repayments or collateral exceed the recorded investments in such loans. Impaired loans where an allowance is established based on the fair value of collateral require classification in the fair value hierarchy. When the fair value of the collateral is based on an observable market price or a current appraisal value, the Company records the impaired loan as nonrecurring Level 2. When an appraised value is not available or management determines the fair value of the collateral is further impaired below the appraised value and there is no observable market price, the Company records the impaired loan as nonrecurring Level 3. Management typically reduces the appraisal value by 10% to determine the fair value of the collateral.

Foreclosed Real Estate: Foreclosed real estate is held for sale and is initially recorded at fair value less estimated costs of disposition at the date of foreclosure, establishing a new cost basis. Subsequent to foreclosure, valuations are periodically performed by management and the assets are carried at the lower of cost or estimated fair value less costs of disposition. The fair value of foreclosed real estate is determined using various valuation techniques which are not readily observable in the market place, including consideration of appraised values and other pertinent real estate market data. Management typically reduces the appraisal value by 10% to determine the fair value of the property.

No amounts were transferred among level 1, level 2 or level 3 during 2015 or 2014.

The following table presents quantitative information about level 3 fair value measurement for assets measured at fair value at December 31, 2015 and 2014:

	Fair Value	Valuation Techniques	Unobservable Inputs	Range	Weighted Average
December 31, 2015:					
Nonrecurring:					
Impaired loans	\$ 688,815	Sales comparison approach	Collateral discounts and estimated costs to sell	10.00%	10.00%
Foreclosed real estate	115,836	Sales comparison approach	Collateral discounts and estimated costs to sell	14.00%	14.00%
Recurring:					
Mortgage servicing rights	755,631	Discounted cash flow approach	Constant prepayment rate Discount rate	7.74% to 9.26% 11.00%	9.02%
December 31, 2014:					
Nonrecurring:					
Impaired loans	\$ 1,120,929	Sales comparison approach	Collateral discounts and estimated costs to sell	10.00%	10.00%
Recurring:					
Mortgage servicing rights	689,036	Discounted cash flow approach	Constant prepayment rate Discount rate	9.47% 11.00%	9.47%
